

CSSG Telecon
2019/02/20

On call: Hayes, Wilson, Trumble, Chambers, Bowen, Zerkle, Erickson, Morman, Kimball, Brady Raap

Agenda:

Tasking 2018-01, CSO Training

- DRAFT Report sent to CSSG on 11FEB19. Comments due by 25FEB19.
- Biggest concern is that the apparent scope (topics to be covered) exceeds the preferred course duration (~ 2 days).
- Will try to schedule a time at the TPR for team to whittle down the content (may be on Thursday after the TPR). This will be for the Tasking Team, but others may participate if agreed upon by the team.
- MBR has been struggling to obtain feedback necessary to lead this Tasking. Tasking Team must engage and assist with the effort.

DGE Action: Send 'another' message to CSSG requesting participation and review.

Technical Program Review @ Pantex

- TPR and Proposal Review week of March 25th.
- All attendees must register via the NCSP website.
- Trip to PANTEX badge office necessary to gain access. Meeting in JCDC Building south of Badge Office (will pass on way to badge office). Use caution when crossing traffic as the speeds are higher than usual (75+ MPH).
- CSSG Scheduled to start at 08:30 on March 25th.
- CSSG will be receiving compiled list of proposals and review guidance by March 1st, for awareness. Zerkle will coordinate NDAG review of Integral Experiment (IE) and Nuclear Data (ND) proposals and provide recommendations as input to CSSG review.

Moss 420.1 Review/Response

- A copy of the 'draft' response was provided after the last call. If anyone has any feedback, please provide.

CSSG F-t-F Meetings

- Should we meet at the National ANS Meeting (June in Minneapolis)?
 - **CSSG Action: To be resolved at the TPR.**
