

CSSG TASKING 2009-04
Date Issued: September 30, 2009

Task Title:

CSSG Review of the 2009 Revision to DOE-STD-1158, *Self-Assessment Standard for DOE Contractor Criticality Safety Programs*

Task Statement:

The CSSG is directed to review the 2009 Revision to DOE-STD-1158, *Self-Assessment Standard for DOE Contractor Criticality Safety Programs* now posted on the DOE RevCom site and previously distributed to CSSG members.

The review should identify potential issues with any of the proposed changes from the November 2002 version, and identify any inconsistencies with ANSI/ANS-8.19-2005, *Administrative Practices for Nuclear Criticality Safety*.

Comments should be sent to Calvin Hopper, Deputy Chair of the CSSG with a copy to Jerry Hicks, NNSA. The Deputy Chair will compile and transmit the final set of comments to the NCSP Manager who will forward them to Jerry Hicks for the final record.

Period of Performance:

The deadline for submitting comments through the RevCom system has passed but we still have a small window of time to submit our comments. Therefore the CSSG is given two weeks from the date this tasking is transmitted to submit their comments. The Deputy Chair will submit the compiled comments within three weeks of the date this tasking is transmitted.

Task Deliverables:

Within fourteen calendar days of the date this tasking is transmitted to the CSSG, each member shall submit his comments to the Deputy Chair. If a member has no comments, he should reply with a simple “no comments” response.

Within twenty-one days of the date this tasking is transmitted to the CSSG, the Deputy Chair shall compile members’ comments and transmit them to the NCSP Manager as representing the CSSG comments on the draft revision to STD-1158.

Upon receiving an concurring with the CSSG comments, the NCSP Manager will transmit them to Jerry Hicks, NNSA, who is responsible for the revision to the Standard.

Task Due Date: October 20, 2009
