

CSSG TASKING 2017-02

Date Issued: 02/23/2017

Task Title:

Review of FY18 NCSP Proposals by the CSSG

Task Statement:

On an annual basis the NCSP solicits proposals for new or revised projects for funding consideration. The CSSG is tasked with reviewing all FY18 proposals, including all ongoing projects and prioritizing all. All current and future projects are on the table.

The CSSG should utilize the latest Five-Year Plan, looking at all program elements, and identify those projects/proposals that most closely align with the identified goals. The only real constraint is the NCSP top line annual funding target as published in the Five-Year Plan.

Period of Performance:

The full CSSG received all FY18 proposals on February 22, 2017. The CSSG will perform a 'triage' review to identify which Task Managers they would like to meet with at the CSSG meeting, after the NCSP Technical Program Review (TPR), on March 16, 2017. The CSSG should finalize their recommendations by March 31, 2017.

Resources:

- All CSSG members are expected to support this effort.
- David Erickson (chair) and David Hayes (deputy chair) will Co-lead the effort.
- CSSG members will use their FY17 NCSP CSSG support funding.

Task Deliverables:

1. The CSSG will perform a 'triage' review and identify Task Managers to meet with by February 24, 2017.
2. The CSSG will review and prepare a draft prioritization of proposals and ongoing projects prior to the TPR (March 14, 2017).
3. The CSSG will meet with identified Task Managers and hold further discussions March 16, 2017.
4. The Co-leaders will prepare a draft prioritization for full CSSG review by COB March 24, 2017.
5. The CSSG will provide final comments by COB March 29, 2017.
6. The final prioritization report will be submitted to the NCSP Manager by COB March 31, 2017.

Task Completion Date: March 31, 2017
