

Date: 7Jun17
Notes from: Periodic CSSG Telecon

Participants: David Erickson, Angela Chambers, Jerry Hicks, Jim Morman, Tom McLaughlin, Dave Heinrichs, Bob Wilson, Doug Bowen
Absent: Kevin Kimball, Fitz Trumble, Mikey Brady-Raap, David Hayes,

Agenda:

2017-03: 3007 Comment Resolution

Kevin has the lead. What is status of Tasking, and is an extension of 'close' date needed?

AC: Were there any show stoppers? Need to discuss at F-t-F.

Naming of codes is vs Toolbox, may need to add some explanation of why not in tool box, and why this is sufficient.

KK: Need to hear status, and a new proposed end date, then make appropriate request through Angela.

2016-04: Natural Phenomena and Extreme Events

We did not achieve consensus, and was not sufficient support to proceed with a minority position.

TM: There is agreement that it is an important task, and needs to be addressed. With the ongoing discussion it appears that we may be closer, than further. Would appreciate receiving additional specific issues and possible resolutions to consider prior to the meeting.

RW: Provided an option for the response some time ago. Will send, again (complete).

TM: Was interested in thoughts from DPH about some of the issues.

DPH: Seems there is a supposition that ANS-8 is separated from DOE, and DOE not needed. Also, some of the crit callouts do seem benign as compare to suggested in the CSSG response.

2016-05: Regulatory Impediments

Completed, awaiting status on UPF clearance concern prior to issue?

KK: Need status to determine path forward

2017-01: WTP Letter Review

Tasking for Rev. 1 approved. Tasking response finalized and has been posted.

Proposed Agenda topics for June Meeting?

Will meet at conference hotel, in Boardroom B, both Thu afternoon and all day Fri.

Draft Agenda topics: (essentially this order, as it is anticipated that the two taskings will have the most energy/discussion.)

Potential Upcoming Taskings:

2017-04: LANL CSP Assessment

Others?

Not official Taskings, but input needed:

AA Handbook

DOE-STD-1027

10CFR830

Current Taskings:

2017-03: 3007 Comment Resolution

2016-04: Natural Phenomena and Extreme Events

If someone thinks of something else, please share

Round Table

Nothing

Next Telecon scheduled for 19Jul17.
