

March 14, 2018

To: A. S. Chambers, Manager, US DOE Nuclear Criticality Safety Program (NCSP)

From: D. G. Erickson, Chair, US DOE NCSP Criticality Safety Support Group (CSSG)

Subject: CSSG Tasking 2017-03, DOE-STD-3007-20XX Comment Resolution

In Tasking 2017-03 a subgroup of the CSSG was requested to address comments received from the RevCom process on DOE-STD-3007-20XX. The working group consisted of the following members:

- Kevin Kimball (CSSG, Team Lead)
- Jerry Hicks (CSSG)
- Bob Wilson (CSSG/CSCT)
- Fitz Trumble (CSSG)
- David Heinrichs (CSSG)
- David Erickson (CSSG Chair)

The task team completed the following deliverables/milestones:

1. Reviewed and responded to all Revcom comments. Presented to the full CSSG at the biannual meeting of the CSSG in June 2017, the comments, resolution, and a revised draft of DOE-STD-3007-20XX.
2. Incorporated CSSG comments into the resolution table and revised the draft DOE-STD-3007-20XX accordingly. Provided the comment resolution table to the NCSP Manager along with the revised DOE standard (in Redline-Strikeout form and clean copy) in June 2017.
3. Participated in DOE final Revcom comment resolution phase.
4. Updated draft DOE-STD-3007-20XX based on negotiated resolution to comments from various DOE Offices. Submitted final DOE-STD-3007-20XX to the NCSP Manager in October 2017.
5. DOE-STD-3007-2017 was published in December 2017.

Record copies of the revised standard, along with the Revcom comments and associated resolutions were transmitted separately and are to be maintained as records under the DOE standards process. Therefore, these documents will not be posted on the CSSG public website. Accordingly, this tasking is closed.
