## CSCT Minutes

Virtual Roll call – please acknowledge your presences in Teams chat.

- Alex Lang, ORNL, joined the meeting

### Previous items update:

- No open items to update

### Items for discussion:

- Bunde – Discuss his new role in EM 3.111
  - Kermit will work with Bob Wilson soon.
  - Did not describe what he will be doing.
  - Looking for CSEs and PDDs – not sure who from – DOE or NNSA
  - Will be transition in next 2 or 4 weeks
  - Unknown who will be backfill at INEL
- Bunde – Revisit CS Specialist Training for DOE-STD-1173-2009
  - Because of the need to train someone for his position when he leaves, he wanted to review the CS training document that Cris Eberle sent to attendees.
  - Kermit requested input from attendees.
  - The current standard is well out of date and references standards that are not defunct or been updated.
  - Current standard says federal employee will write a criticality safety evaluation, but this is not likely to happen. This seems to be covered in training per attendees. This has also been covered by attending a class where a CSE was prepared.
  - There was a lengthy discussion on whether oversight meant you need to have the same qualifications as the M&O or not – the consensus was no.
  - If the standard needs to be changed, find out who owns it and talk to them.
  - Kermit will speak with Angela Chambers about revising it.
  - There was an effort in June 2020 that died due to being overtaken by COV and retirements at the NTC.
  - The update in June 2020 was to meet the new requirements for MPAs similar to the NSS qual standard.
  - Cris asked about those who have qualified in last 5 years what have been the difficulties such as getting funding for travel, response was that the technical part was not difficult.

### Open discussion:

- NDA measurement issues that affect process analysis for the criticality safety analysis.
- Site fire department personnel taking CS training.
- *At the May meeting Bunde will provide an information update for DOE-STD-1173-2009.*

### Topics for future meetings?

*Meeting adjourned at 12:00pm ET.*
