

CSSG TASKING 2023-02

Date Issued August 16, 2023

Task Title: Role of CSSG Emeritus Members

Task Statement:

The CSSG is tasked to define the role of its Emeritus Members. The recent CSSG Self-Assessment (Tasking 2022-02) included the recommendation to better define the role of the Emeritus Members in order to improve the overall impact of the CSSG in alignment with the original vision to help the DOE solve criticality safety problems by more effectively utilizing their expertise.

Period of Performance:

The tasking should kick off the effort by August 16, 2023, followed by a draft for review by the full CSSG by September 30, 2023, and the final version for posting to the NCSP website by October 31, 2023.

Resources:

Contractor CSSG members will use current NCSP CSSG funding; DOE members will use office funding; Emeritus members will utilize task based NCSP funding.

The CSSG Task Team Members are:

- David Erickson (Team Lead)
- Jerry McKamy
- Kevin Kimball
- Calvin Hopper

Task Deliverables:

Provide a report with recommendations for the role of Emeritus Members as a group as well as possible roles based on specific expertise of individual Emeritus Members. The report should also address funding for these Emeritus Member roles as applicable.

Task Completion Date: October 31, 2023

Signed:

Angela Chambers, PhD
Manager, US DOE NCSP
Office of the Chief of Defense Nuclear Safety, NA-ESH-21
