

# Lawrence Livermore National Laboratory 7000 East Ave, Livermore CA, 94550

**SUBJECT:** Report of Foreign Travel to the 12<sup>th</sup> International Conference on Nuclear Criticality

Safety

**DATE:** October 26, 2023

TO: Dr. Angela Chambers, USDOE Nuclear Criticality Safety Program Manager, National

Nuclear Security Administration, NA-ESH

**FROM:** Aaron Tamashiro, Nuclear Criticality Safety Division, Lawrence Livermore National

Laboratory

#### **MEETING TITLE**

12th International Conference on Nuclear Criticality Safety

#### **MEETING LOCATION**

Sendai International Center, Miyagi, Japan

#### **MEETING DATES:**

October 1-6, 2023

#### ATTENDEES ON BEHALF OF NCSP

Aaron Tamashiro, Jesse Norris, Catherine Percher, Eric Aboud, Ruby Araj, Michael Branco-Katcher<sup>1</sup>, Shauntay Coleman<sup>1</sup>, Alan Yamanaka<sup>1</sup>, and Samuel Varghese<sup>1</sup>

#### **MEETING PURPOSE**

The purpose of the event was to share progress in topics relevant to nuclear criticality safety: codes and calculation methods; nuclear data; uncertainty and sensitivity analysis; measurements, experiments, and benchmarks; standards, assessment methodology, regulations; operational practices and safety cases; storage, transport, and disposal issues; criticality accidents and incidents; professional development issues and training; future challenges. Two special sessions were included covering: Fukushima Dai-ichi Nuclear Power Plant; Machine Learning, Deep Learning. LLNL presented results from PNDA measurements using gamma-ray spectroscopy, results from benchmark measurements of TEX-HEU and TEX-Hf, progress in low-temperature TEX, progress in dose characterization of the AFRRI TRIGA reactor, and the design for a critical experiment to neutronically validate a molten chloride salt reactor.

The final program for the conference is attached.

#### **MEETING BENEFITS TO THE NCSP**

ICNC is the premiere conference for nuclear criticality research around the world. Attendees presented NCSP-funded research and interacted with national and international colleagues to further their understanding of different techniques and perspectives related to nuclear criticality safety. Topics in nuclear data needs were presented which may incite new ideas for future experiments and benchmarks for nuclear data validation. There have been discussions for HALEU benchmarks, which may be an avenue for new criticality experiments.

<sup>&</sup>lt;sup>1</sup> Funded under separate auspices.

#### **PURPOSE OF TRAVEL**

C. Percher was on the ICNC international scientific advisory committee, a track leader for the "Measurements, Experiments, and Benchmarks" track, chaired two technical sessions, presented on ICSBEP Updates, and provided an invited closing plenary speech. J. Norris presented results from the TEX-HEU and TEX-Hf measurements and presented progress in modelling the low-temperature TEX configuration. E. Aboud presented progress in low-temperature TEX surrogate measurements. R. Araj presented results from coupling PNDA measurements with gamma-ray detection. Aaron presented a poster showcasing progress in dose characterization measurements at AFRRI TRIGA reactor. Michael presented a design for a molten chloride reactor experiment facility.

#### Presentations, Chair Responsibilities, Etc.:

Seven presentations given:

- "TEX-HEU & TEX-Hf: Critical Assemblies with Highly Enriched Uranium, Polyethylene, and Hafnium," Jesse Norris, C. Percher, D. Heinrichs, et. al.
- "Neutronic Characteristics of the Low-Temperature TEX Design and Proposed Configurations,"
   Jesse Norris, C. Percher, E. Aboud, et. al.
- "Towards an Era of Low Temperature Integral Critical Experiments: Surrogate Testing of Low-Temperature TEX Configurations," Eric Aboud, P. Yap-Chiongco, J. Norris, et. al.
- "Gamma-ray Measurements from Pulsed-Neutron Die-Away Experiments (PNDA)," Ruby Araj, D. Siefman, L. Bernstein, et. al.
- "Criticality Experiment Design for the Molten Chloride Reactor Experiment Facility," Michael Branco-Katcher, D. Siefman, T. Palmer, et. al.
- "Status of the International Criticality Safety Benchmark Evaluation Project," Catherine Percher, J. Bess, W. Marshall, et. al.
- "Inherently Safe Subcritical Assembly Lite," Samuel Varghese and W. Zywiec<sup>1</sup>

#### Three poster presentations given:

- "AFRRI TRIGA Reactor Neutron and Gamma Dose Characterization Preliminary Results," Aaron Tamashiro, P. Angus, D. Heinrichs, et. al.
- "Comparison of Computational and Experimental Results for Criticality Accident Alarm Placement," Alan Yamanaka, S. Kim, and S. Coleman<sup>1</sup>
- "Criticality Safety Evaluation Project Development for University of California Berkeley Nuclear Criticality Safety Pipeline Course," Shauntay Coleman, A. Yamanaka, and W. Zywiec<sup>1</sup>

#### Four sessions chaired:

- "Fukushima Dai-Ichi Nuclear Power Plant," <u>Catherine Percher</u> and Yasushi Nauchi (CRIEPI)
- "Measurements, Experiments, and Benchmarks," <u>Catherine Percher</u> and Cheol Ho Pyeon (Kyoto Univ.)
- "Measurements, Experiments, and Benchmarks," <u>Jesse Norris</u> and Kotaro Tonoike (JAEA)
- "Professional Development Issues and Training," <u>Shauntay Coleman</u> and Hiroki Takezawa (Nagaoka Univ. of Tech)<sup>1</sup>

#### Notable responsibilities and awards:

- Catherine Percher was part of the conference's international scientific advisory committee and a track leader for the "Experiments and Benchmarks" track
- Catherine Percher was invited to deliver the Closing Plenary during the Closing Session
- A. Yamanaka awarded 2<sup>nd</sup> Best Poster for "Comparison of Computational and Experimental Results for Criticality Accident Alarm Placement"

• S. Coleman awarded Most Interesting Poster for "Criticality Safety Evaluation Project Development for University of California Berkeley Nuclear Criticality Safety Pipeline Course"

#### **Distribution:**

Angela Chambers, <a href="mailto:angela.chambers@nnsa.doe.gov">angela.chambers@nnsa.doe.gov</a>
Doug Bowen, <a href="mailto:bowendg@ornl.gov">bowendg@ornl.gov</a>
Marsha Henley, <a href="mailto:henleym@ornl.gov">henleym@ornl.gov</a>
Catherine Percher, <a href="mailto:percher1@llnl.gov">percher1@llnl.gov</a>
<a href="mailto:ci@llnl.gov">ci@llnl.gov</a>

## Appendix: List of attendees

First Name	Last Name	<u>Affiliation</u>	Country
