Previous items update:

- No previous items for discussion

Items for discussion:

- Darwin Damba (LLNL) – SAFER FY26 Presentation
 - Provided a demo on showing OR #26-16 Degradation of the Building 332 Safety Significant Criticality Alarm System.
 - Purpose of SAFER is to use AI to more quickly provide corrective actions.
 - Useful for evaluating trends and lessons learned.
 - It can handle both CUI and UCNI information.
 - The question is how are AI generated documents reviewed and marked for CUI?
 - There was a request for a copy of the SAFER memo to be included with the minutes.

Open discussion:

- Any open discussion topics?
 - <https://efcog.org/nuclear-facility-safety-spring-2026-workshop/>
 - February 6th – Registration cutoff for in-person attendance
 - February 16th – Registration cutoff for online-only attendance
 - EVERY in-person attendee will be required to fill out the [START FORM](#) and return the form to: Naomi Garcia-Grijalva ngrija@sandia.gov by 2/10/26.
 - Monday there is a NCS Community of Practice meeting – agenda provided by end of week
 - Encourage others to try to come as an in-person attendee

Proposed Topics for future meetings

- PDSA process for SMRs. This may be a challenge due to the proprietary nature of some technology.
